USP-797/USP-800/503b Outsourcing Facility Certifications and Consulting

We would like to invite you to try our pharmacy services. Superior Laboratory Services, Inc. brings the most experienced management team available anywhere. Our company was chosen as an inspection team for the State of Texas Board of Pharmacy out of state facility group. We sit on the ISO-14644 clean room review TAG (technical advisory group) team as one of only 20 in the United States of America. Our President is on the IEST (Institute of Environmental Sciences and Technologies) Board as Vice President of Education for the Contamination Control Division.

Superior Laboratory Services, Inc. helps write the standards the other company's read. This gives us the knowledge and understanding of how the test procedures were developed and rational as to why the tests are performed and designed.

Our reports meet all known and even proposed standards at times before they have been released. We put your reports on a database only you can access and it is in the cloud to bring the ultimate security and reliability. This database even emails you when your inspections are due and gives the latest up to date certification and calibration information. Lastly, our president was recently asked to join the FDA's advisory committee for 503b sterile compounding outsources facility's team. He even trains for IEST, on how to design, build, and test these facilities, but also USP-797, 800, and BSL-3 labs. Please allow us to show you our services, and understand we install, maintain, repair, remodel, and consult for our clients. Thank you in advance for considering our services that offer 24 hour service with a 3 year warranty on labor, unheard of in any industry.

Sincerely,

Rick Meyer
President
Superior Laboratory Services, Inc.
Texas State Board of Pharmacy
Out of State Inspector
ISO-14644 TAG Team Member
Vice President I.E.S.T. Contamination Control Division
